1. NATURE OF OPERATIONS

Newport Exploration Ltd. (the “Company”) was incorporated on September 19, 1979 under the Business Corporations Act, British Columbia and is considered to be in the exploration stage with respect to its exploration and evaluation asset. Based on the information available to date, the Company has not determined whether its exploration and evaluation asset contains ore reserves. Recoverability of the carrying amount of the exploration and evaluation asset is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest. The Company, receives royalty payments related to a retained interest in certain petroleum licenses in Australia (note 5). The Company has no ability to determine the quantum or sustainability of future royalty payments, and as a result, there is no assurance the Company will continue to receive payments from its 2.5% gross overriding petroleum royalty. The receipt of royalty payments are not indicative of additional near-term income or any future income as the Company has no information to support or validate the expectation of future receipt. Any future royalty receipt is treated as fortuitous.

These unaudited condensed interim financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes that the Company will be able to continue in operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. To date, the Company has financed its operations primarily through issuance of common shares and from the receipt of royalty payments. The Company currently has cash and short term investments totalling \$3,461,312 and net working capital of \$7,535,751 which the Company believes is sufficient to fund its current business plans in the foreseeable future. In the longer term, additional equity or debt financing may be necessary to fund exploration and general and administrative activities or mine development or if royalty payments are not sufficient to fund such activities.

The Company’s head office and principal address is 202 – 2168 Marine Drive, West Vancouver, British Columbia, Canada, V7V 1K3. The Company’s registered and records office is 1500 – 1055 West Georgia Street, Vancouver, British Columbia, Canada, V6E 4N7.

Covid-19 impact on the business

In March 2020, the World Health Organization declared a global pandemic related to COVID-19. The current and expected impacts on global commerce are anticipated to be far reaching. To date there has been volatility in commodity and foreign exchange markets and the global movement of people and some goods have become restricted.

The impact of the Coronavirus (COVID-19) pandemic is ongoing and while there has been no significant financial impact for the Company as at the approval date of these financial statements, other than a restriction for all staff on international travel, it is not practicable to estimate the potential impact, positive or negative, on future periods. The situation is dependent on measures imposed by the Canadian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

2. STATEMENT OF COMPLIANCE

These unaudited condensed interim financial statements were authorized for issue on March 19, 2021 by the directors of the Company.

Statement of compliance

These unaudited condensed interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting” (“IAS 34”) using accounting policies consistent with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and Interpretations of the IFRS Interpretations Committee.

These unaudited condensed interim financial statements do not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the audited annual financial statements of the Company for the year ended July 31, 2020.

3. RECEIVABLES

Trade and other receivables are comprised of the following:

	January 31, 2021	July 31, 2020
GST receivable	\$19,458	\$ 13,428
Petroleum royalty (Note 5)	2,515,428	1,766,080
Other	9,753	41,065
Total	\$ 2,544,639	\$ 1,820,573

Information about the Company’s exposure to credit risk and market risk for the Petroleum Royalty is included in Note 12.

4. EXPLORATION AND EVALUATION ASSET

In, 2014, the Company acquired a 100% interest in Chu Chua, a sulphide deposit located north of Kamloops, British Columbia. In consideration, the Company paid Grosvenor Resource Corporation (“Grosvenor”) \$1,500,000 and issued 5,436,000 common shares of the Company having a fair value of \$217,440. The acquisition agreement supercedes and replaces an earlier 50% earn-in agreement wherein the Company incurred a total of \$335,012 in expenditures. There are two separate 1% net smelter returns on Chu Chua to underlying parties. A significant shareholder of Grosvenor is a director of Newport. During 2018, the Company determined it had no current plans for exploration on the property, and that Chu Chua should be impaired to its recoverable amount of \$1 and an impairment charge of \$2,082,080 to operations was recorded.

5. PETROLEUM ROYALTY

Under the terms of an agreement for the sale of CVL Resources (Barbados) Ltd. (formerly a wholly-owned subsidiary of the Company) in 2002, the Company retained a 2.5% gross overriding royalty interest on any hydrocarbons discovered on certain petroleum exploration licences in Australia. During the three months ended October 31, 2020, the Company earned \$2,557,925 (2019 - \$2,826,921) of petroleum royalty income, of which \$2,523,457 (July 31, 2020 - \$1,766,080) is included in receivables as at October 31, 2020. Subsequent to October 31, 2020, the Company received AUD\$1,884,295 which represents the royalty receivable net of a 30% withholding tax of AUD\$807,851. The receipt of royalty payments is considered to be highly variable, and as such these payments are not indicative of additional near-term income or any future income.

In 2016, the Australian Tax Office (“ATO”) ruled that the Company’s petroleum royalty income is taxable in Australia and, as such, the Company has 30% of its royalty payment withheld at source by Beach Energy Ltd (“Beach”) and Santos Ltd (“Santos”), which Beach and Santos are required to remit to the ATO. The Company files annual tax returns in Australia.

6. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

	January 31, 2021	July 31, 2020
Trade payables	\$ 42,546	\$ 5,016
Due to related parties (Note 8)	14,166	13,332
Accrued liabilities	2,350	25,350
Total	\$ 59,062	\$ 43,698

The Company’s exposure to liquidity risk is included in Note 12.

7. CAPITAL STOCK AND RESERVES

a) Authorized share capital

As at January 31, 2021, the authorized share capital of the Company is an unlimited number of common shares without par value.

Basic and diluted per share amounts have been calculated based on the following:

	January 31, 2021	January 31, 2020
Weighted average number of common shares - basic	105,148,624	104,429,874
Effect of outstanding stock options	815,160	238,422
Weighted average number of common shares - diluted	105,963,784	104,668,296

Only the “in-the-money” dilutive instruments impact the calculation of dilutive income per common share.

During the six months ended January 31, 2021, the Company received proceeds of \$293,250 from the exercise of 1,150,000 stock options. In conjunction with the exercise of stock options, the Company reclassified \$192,841 to capital stock from reserves.

7. CAPITAL STOCK AND RESERVES (cont'd)

c) Share-based payments (cont'd)

The Company applies the fair value method using the Black-Scholes option pricing model to account for stock options granted to directors, officers and consultants. The following assumptions were used to calculate the fair value of the stock options granted during the year:

	2021	2020
Risk-free interest rate	-	1.62%
Expected life of options	-	5 years
Annualized volatility	-	67.16%
Dividend rate	-	16%
Forfeiture rate	-	0%

d) Warrants

There are no warrants outstanding at July 31, 2019, July 31, 2020 and January 31, 2021.

8. RELATED PARTY TRANSACTIONS

The aggregate value of transactions with key management personnel, consisting of the Chief Executive Officer (“CEO), Chief Financial Officer (“CFO”) and members of the Board of Directors, for compensation are as follows:

9. COMMITMENTS

The Company has management and consulting contracts with a company controlled by Ian Rozier, a director and CEO of the Company, and a company controlled by Barbara Dunfield, a director and CFO of the Company. The Company pays the companies a combined total of \$80,325 per month. These contracts remain in force on a continuous basis and can be terminated by the Company with 90 days written notice. If termination of services of either or both companies is without cause, the Company will be obligated to pay 36 months of service fees to either or both companies.

10. SEGMENTED INFORMATION

The Company operates in one business segment being the acquisition and exploration of resource properties. The Company's mineral property is in Canada and the Company's royalty income is derived from Australia.

11. INCOME TAXES

The Company's 2.5% gross overriding petroleum royalty received from Beach, (net of applicable expenses) is subject to withholding tax in Australia, and Australian income taxes are filed annually. Newport's Australian income tax receivable is a result of the Company incurring eligible deductible expenses for Australian income tax purposes, which offsets the payable. The Company had a net Australian income tax liability at January 31, 2021 of \$581,706 which consists of accrued withholding taxes on its Royalty receivable at January 31, 2021 of \$754,628 (July 31, 2020 - \$529,824) and accrued Australian income tax receivable of \$172,922 (Jul 31, 2020 - \$361,655). During the six months ended January 31, 2021, the Company received its July 31, 2020 Australian income tax receivable.

12. FINANCIAL AND CAPITAL RISK MANAGEMENT

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The carrying value of cash, receivables and accounts payable and accrued liabilities approximate their fair value because of the short-term nature of these instruments. The fair value of short term investments was \$3,461,312 at January 31, 2021 (July 31, 2020 - \$2,017,538), a level 1 fair value measurement.

Financial risk factors

The Company's Board of Directors has the overall responsibility for the established method and oversight of the Company's risk management framework.

The Company is exposed in varying degrees to a variety of financial instrument related risks and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

12. FINANCIAL AND CAPITAL RISK MANAGEMENT (cont'd)

Financial risk factors (cont'd)

Credit risk

Credit risk is the risk of financial loss associated with counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and equivalents, short-term investments and receivables, the carrying value totalling \$8,148,358, represents the Company's maximum exposure to credit risk. Management believes that the credit risk concentration with respect to financial instruments is remote because cash and equivalents and short-term investments are held with reputable Canadian financial institutions. Receivables consist mainly of the Company's royalty income. The royalty income comes from one company, and is typically received within 30 days after the quarter of production. The Company does not consider any of its current receivables past due. The Company believes any credit risk associated with its receivables is remote due to the historical success of collecting receivables.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when they come due. As at January 31, 2021, the Company had a cash and equivalents balance of \$2,142,407 (July 31, 2020 - \$4,795,013), receivables of \$2,544,639 (July 31, 2020 - \$1,820,573) and short-term investments of \$3,461,312 (July 31, 2020 - \$2,017,538) to settle current liabilities of \$640,768 (July 31, 2020 - \$211,867). All of the Company's financial liabilities are subject to normal payment terms.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant.

a) Interest rate risk

The Company has cash and equivalents balances and short-term investments. The Company's current policy is to invest excess cash in investment-grade short-term deposits certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. The effect on net income and comprehensive income of a 1% change in interest rates is approximately \$25,300.

b) Foreign currency risk

The Company is exposed to foreign currency risk with respect to its petroleum royalty payment, and its net income tax payable which are denominated in Australian dollars. The net effect on net income and comprehensive income of a 1% change in exchange rates between the Australian dollar and Canadian dollar foreign exchange is approximately \$14,400. The Company does not currently hedge exchange risk.

Capital management

Newport's objectives when managing capital is to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk. In the management of capital, the Company includes the components of shareholders' equity.

Newport manages the capital structure and makes adjustments to it, in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue new shares, issue debt, acquire or dispose of assets or adjust the amount of cash.
